RAV4 HYBRID

RAV4's powerful 2.5-litre Hybrid Dynamic Force powertrain delivers outstanding performance without compromise. It gives you confidence in every driving situation, from fast-moving motorways to congested cities with emission restrictions and challenging road conditions. And thanks to its self-charging Hybrid powertrain, you'll also enjoy exceptional range – giving you the benefits of electric power, such as a quiet drive and greater efficiency, without inconvenience.

With RAV4 Hybrid, you can glide through the city, embrace the open road and leave compromise behind.

KEY ACCESSORIES

RAV4 CARE PACK

BOOT LINER

Tailored to the boot of your vehicle and provides protection against dirt and spills.

FRONT & REAR MUD GUARDS

Designed to minimise water, mud and stones spraying onto your car's body.

LOCK NUTS

Replacing one nut on each wheel with a Toyota hardened steel wheel lock will maximise security for your valuable alloys.

RAV4 PROTECTION PACK

RUBBER FLOOR MATS (2 FRONT & 2 REAR)

Genuine tailored rubber floor mats help protect your carpets against the very worst conditions

REAR BUMPER PROTECTION PLATE

A clear plastic film design to protect the rear bumper paintwork against scratching when sliding heavy or awkward loads into the boot.

DOOR HANDLE PROTECTION FILM

The door handle protection film is a tough transparent self-adhesive film that helps to protect paintwork against those small scrapes and scratches.

DISCOVER HYBRID

Toyota has pioneered Hybrid technology for more than 25 years. Our Hybrid cars are enjoyed by millions of drivers on the road today. Toyota's latest fifth-generation Hybrids combine an electric motor and a petrol engine in one best-of-both-worlds powertrain, delivering impressive performance and driving range.

Why Hybrid?

Refuel as usual

Refuelling a Hybrid car is easy. Top up your Toyota Hybrid with petrol at a filling station, as you would a conventional car.

Responsive and efficient

Toyota Hybrids seamlessly combine petrol and electric power to optimise efficiency and deliver smooth, responsive power. They drive much like a conventional car but can cover up to 42% of your driving distance and 56% of your driving time in electric-only EV modes.

No Plugging In

Toyota Hybrids charge their batteries while braking and coasting. Together with their onboard combustion engine, this means you don't need to worry about electric range, and no need to plug in your car to charge.

ALWAYS ON THE GO, ALWAYS CONNECTED

The intelligent cockpit keeps everything in sync between your vehicle and smartphone. The MyToyota App, designed to enhance the driving experience, opens up a world of connectivity.

Depending on the model, the MyToyota App provides a suite of services that enable you to heat and cool your car using your smartphone, check your car's battery level, receive real-time updates, view trip history, and access to coaching features aimed at optimizing your driving performance, ensuring you get the most from your Toyota.

TOYOTA SAFETY SENSE

Toyota Safety Sense features a set of five active technologies with the ultimate goal being to reduce traffic accidents as much as possible, helping to create a safer driving environment for everyone, while supporting you in your daily journey.

Pre-Collision System

Recognizes a potential head-on impact and a wide range of objects in the car's path, including pedestrians, cyclists and motorcycles.

Lane Departure Alert

The lane-centring function will alert the driver if the vehicle starts to deviate from its lane.

Automatic High Beam

Designed to optimise visibility during night driving by automatically switching between high and low beam for oncoming vehicles and leading traffic

Road Sign Assist

Monitors the road signs ahead, displaying useful information such as the current speed limit.

Adaptive Cruise Control Drivers can choose their cruising speed at a pre-set distance from the vehicle in front. If this distance falls, the system will reduce its speed.
